## ShortSearch Ethical AI Overview:

Today AI has become a real-world application technology and part of the fabric of modern life. ShortSearch believes AI can deliver great benefits for economies and society, and support decision-making. However, the benefits will not be realized without AI Ethical layer, which includes consideration of how its development and usage should be governed. The AI is a powerful, multi-purpose technology with the potential to transform humanity and Mother Earth in the positive or negative direction depends on how it is developed or used based on ShortSearch 14 Layers Ethical AI Framework Model. In this paper we are introducing the Constructive Change based on ShortSearch positive 7 layers of Human Evolution and negative 7 layers (0 to -6) of Subhuman Devolution for AI Ethical Layer as Education and Coaching System in the AI layered architecture model.

Please Don't move behind me, I'm not leading because don't have answer to all questions. Please don't move in front of me, I don't follow unless you will **Shine** [4][5] a light to guide me in the darkness. Just walk beside me I will become your Ladder Bridge then together we **Shine** [4][5] our light for others to follow. This is how we might find solutions to overcome our challenges as part of the team with legacy to serve mother earth rights interest as busy honeybees for future generations and other beautiful species.

**“You never change things by fighting the existing reality. To change something, build a new model that makes the existing model obsolete.”**

— [R. Buckminster Fuller](#)

**“Intelligence is the Ability to Adapt to Change”** Prof. Stephen Hawking

Darwin famously said it's not the strongest of the species that survives, nor the most intelligent. **“It's the one that is most adaptable to change.”**

**“The Secret of Change Is to Focus All of Your Energy, Not on Fighting the Old, But on Building the New”** Socrates (470 – 399 BC) Renowned as one of the most exceptional intellectual philosophers to have ever walked Mother Earth

Unfortunately great majority of 7.8 million people of world average total score points for ShortSearch 7 Layers Human Evolution currently very low and 7 Laves of Devolution Points are very high based on ShortSearch Test Cases and evaluation of 1000 well educated people. This might be considered as the root causes of many problems for Mother Earth and if we cannot improve this result drastically in next 10 years by using AI Ethical Educational & Personal AI

Coaching system for all ages, life on earth might not survive in next 100 years . The AI Coaching Artificial Intelligence system based on ShortSearch Ethical 14 layers.

As former employee of Intel Dr. Andy Grove, Intel's co-founder, educated us regarding a strategic inflection point as "an event that changes the way we think and act." Inflection points can be a result of action taken by a company, or through actions taken by another entity, that has a direct impact on the company.

# ShortSearch Innovations Lab 14 Layers Ethical AI Framework Model

Above layered model for AI governance is by Harvard university scholars [1]. The interacting layers (which sit between society and AI applications) are social and legal; ethical; and technical foundations that support the ethical and social layers. In this paper our focus AI Ethical Layer based on Mother Earth Rights for education and coaching Constructive Lifestyle Change.

Today major private global platforms, such as Google, Facebook, Amazon, Apple, Microsoft and others use AI based filtering algorithms to control access to information and targeting customers. Currently there is no agreed rules, transparency, accountability for the AI ecosystem, and our elected officials, governments, educators, schools, and parents don't have much visibility regarding what is going on in the current Semi-anarchy of AI world and Internet without agreed ethical international standards and governance.

James Madison "If Men were angels, no government would be necessary. If angels were to govern men, neither external nor internal controls on government would be necessary. In framing a government which is to be administered by men over men, the great difficulty lies in this: you must first enable the government to control the governed; and the next place, oblige it to control itself."

Is James Madison statement true about AI ethical governance? Do we want AI Ethical Layer and governance? Who is the owner of Mother Earth? Who is the owner of Air, Water and soil? Who is the owner of data? Are all of people humans or Angels? Are subject experts' human planning to define new rules? ...

# What Is Universal Code of Ethics for Artificial Intelligence Based on Mother Earth Rights?

## ShortSearch AI Mother Earth Code of Ethics Criteria & Principles are Based on Mankind 3000 Years History of Good, Bad and Evil [words, thoughts and deeds].

Innovative ShortSearch 14 layers Model Framework AI Constructive Change Tool Solutions to transition from Subhuman / Inhuman to Human & Mother Earth and then into practical measures that can be implemented by organizations deploying responsible AI solutions at scale to help great majority of humanity who might want to navigate constructive change path and become better species for Mother Earth. Based on our research constructive lifestyle change is very difficult for great majority (over 95% of people in the world) therefore ShortSearch AI Constructive Change Tool Solutions based on 14 layers might be considered as best solution for next 10 years. We believe ShortSearch innovative AI Constructive Change Tool Solutions might be helpful to guide people to prevent them from downward spirals transition to Evil Inhuman/Subhuman Cancerous or Virus layers of devolution.

Unfortunately today the percentage of people of the world that might operate at higher layers of Human Evolution and with high code of ethics might be less than 5 % of total world population, and this might be the root causes of many problems that we are facing today and the existential threats to all species in Mother Earth for next 100 years.

Since brain stores most of the information in short-term memory for about one minute and its capacity is limited to about 7 items, then 7 layers Model could be easily understandable for great majority of Human.

As a Constructive Change Architect for Next Generation ShortSearch AI Framework to simulate Human mindset based on **Universal Mother Earth Rights Code of Ethics** Rules to delay or reverse existential threats by mankind irrational decisions in next 100 years. We need to simplify the complex human mindsets (rational or irrational) decision making process that is evolved in past 3000 years to what it is today. If we want Artificial Intelligence to become rational Constructive Change and better monitoring and education and coaching tool to overcome extreme change challenges, then historical understanding of Mankind mindset critical. Rational Constructive Change AI Machine navigate and educate human, next generation of human to the highest level of evolutionary universal code of ethics and stop working if and when ShortSearch AI detect irrational, greedy, and violent human mindset who is not respecting and following Universal Mother Earth Rights Code of Ethics. Based on Human History in past 3000 years I have divided Human evolutionary thought process to 7 Human layers Model and 7 Subhuman layers Model.

Based on your own research and observation if your answer to following questions are **YES** then you are part of our ShortSearch Transformative Change collaborative team under distributed leadership model advocating lifestyle change for yourself and supporting others to change.

- 1- Are you Concerned about Climate Change and Pollution?**
- 2- Is Mother Earth a living being?**
- 3- Is Mother Earth and all beings of which she is composed have the following inherent rights: (a) the right to life and to exist; (b) the right to be respected?**
- 4- Do you agree with UN scientists that only 11 Years Left to Prevent Irreversible Damage from Climate Change?**
- 5- Are climate change and pollution existential threats to humanity and Mother Earth?**
- 6- Since no governments in the world have any Magical solution to many challenging past 100 years complex problems of Climate Change, Cancer, Brain & Heart Diseases, Human Rights, Women Rights, Animal Rights, Gender Equality, Gender-based violence, past and future Genocide and Holocaust ... Are you ready to start from yourself by first step of Lifestyle Change, try your best based on your own limited resources, free time and help others who are facing challenging problems?**

**What is ShortSearch Constructive Lifestyle Change in Next 10 years by the people who are not waiting for any Governments Magical solution in the world?**

Lifestyle Changes to healthy Organic Whole-Food Plant-based are a process that take time and require support. Once you're ready to make a **change**, the difficult part is committing and

following through. So please do your research and make a plan that will prepare you for success, please don't expect quick result from changing, in some cases you might need to wait for at least 6 months before you may notice big difference. Careful planning means setting small goals and taking things one step at a time.

### **Why is it so hard for people to change?**

"After a heart attack, how many of you will adhere to a healthy lifestyle: eat right, exercise regularly, and stop smoking?" You might be shocked "Twenty per cent! Or, to put it another way, one in five. Four out of five of you will not change to save your lives!"

**With your support ShortSearch is planning to develop AI Framework Based On 7 Layers Human Evolution Model as Constructive Lifestyle Change Tool to support and help children, teenagers and adults to change by baby steps of AI coaching and protecting your privacy.**

This is how ShortSearch might be able to support you and your family for challenging journey regarding Constructive Lifestyle Change:

If and when over 50% of world population become convinced that the Lifestyle Change starts from ourselves based on ShortSearch Constructive Change 7 Layers Model then we might have very good chance to prevent existential threats to mother earth species.

## MAPPING THE HUMAN BRAIN TO UNDERSTAND THE HUMAN MIND

The Human Connectome Project, the first of its kind, seeks to use this kind of leading-edge technology to map the brain structure and its connectivity to superfine detail. Researchers hope this kind of brain mapping will help scientists answer the question: How do parts of the brain work together to produce human behaviors?

The project is a monumental undertaking. Backed by tens of millions of dollars, the project pulls together some of the brightest minds from leading institutions, including Harvard University, UCLA, Washington University, the University of Minnesota and the University of Oxford. Using state-of-the-art imaging technology and borrowing the time of some 1,200 volunteers, the researchers hope a map of the brain structure and its connectivity will lead them one step closer to understanding how these neural highways influence individual human behavior, intelligence and emotion.

### **Constructive Human Layer 4 Evolution?**

[Oxford University: Human Rights Tracking Map & Human Rights Abuses Over Time](#) Ref [8]

Human Rights [[Cyrus the Great Leader of First Ethical Empire and Father of First Declaration of Human Rights](#)] [[CYRUS THE GREAT AND THE EXECUTIVE BRANCH](#) By Cyrus Kar with over 15 years research Shine Light for this layer ] + Women Rights + Human Layer 3 Or Layer 2 Or Layer 1

Can we protect Human Rights, Women Rights, Gender Equality ... without freedom of press?

**Ref [8]** Human rights describe moral norms or moral standards which are understood as inalienable fundamental rights of every human person. Human rights encompass a wide variety of rights, including but not limited to the right to a fair trial, protection of physical integrity, protection against enslavement, the right to free speech, and the right to education. The protection of human rights is certainly one of the most important aspects of development. Nevertheless, it receives much less attention than other aspects. Protection of human rights is absolutely essential to reduce conflicts and wars, it is not enough to count countries that ratify human rights treaties; instead, the quantitative study of human rights aims to determine whether or not certain human rights are protected in practice everywhere or not.

CYRUS THE GREAT AND THE EXECUTIVE BRANCH

Could the first modern-day democracy have been shaped, in part, by an ancient monarch? In an infomercial made in 2007 to promote a documentary film, I claimed that America's Founding Fathers were influenced by the ancient Persian king, Cyrus The Great.

It is the contention of this paper that Cyrus The Great's contribution to American democracy was nothing less than Article II of the U.S. Constitution establishing the Executive Branch of the Presidency of the United States. In other words, the first 'Modern-Day Democracy' owes its Preside to an ancient Persian monarch.

THE CONSTITUTION OF THE UNITED STATES

Since its ratification in 1788, the U.S. Constitution has already become one of the most studied and analyzed documents ever written. It is the blueprint for the longest-running government in history that answers to its people rather than the other way around. The authors of this document were so forward thinking that many believe they were divinely inspired.

America's Founding Fathers wrote two of the most important documents in history - the Declaration Of Independence and the United States Constitution. But only those Founding Fathers who drafted the Constitution are referred to as the 'Framers.'

The Constitution was signed by 39 Framers, but only five are considered the key thinkers behind this history-changing document - Thomas Jefferson, James Madison, Benjamin Franklin, John Adams and Alexander Hamilton.

### Constructive Human Layer 2 Evolution?

Today 15% of Human are Unaffiliated, Nonreligious, Secular, Agnostic ([Father of Agnostic Thought Khayyam Open Forum](#) [ [Wiki Persian Scholar mathematician, astronomer and Agnostic Poet Khayyam](#)]) and [Father of Atheist Thought Razi Open Forum](#) ([Persian Scholar Razi \(854–925 CE\)](#) (Physician, Chemist, Agnostic Philosopher, and important figure in the history of medicine)

Key attributes for this layer Renaissance ( [Father of Renaissance Italian Genius Engineer and Painter Leonardo da Vinci](#) ) , Gender Equality, Qualified Women are in Leadership Positions ...

### Constructive Human Layer 1 Evolution?

85% of Human are religious and believe in one of the ancient religions, great Majority of Mankind and their religions believed Earth was flat until 1500s. Most religions elevate the status of men over women, have stricter sanctions against women, and require them to be submissive. Religion's appeal to Human is that it offers security in an uncertain world and promise of Heaven and satisfy human extreme greed attributes. The common patterns and attributes of all religions were the women cannot become religious leaders even if they are more educated than others. To simplify complexity of 1000 religions and religious cultures, I have divided past 3000 years religions to three categories:

**Category 1 Peaceful Religions That Can Be Reformed:** More tolerance towards non-believer, could be reformed for gender equality, peaceful religions that are based on the importance of Love, Good Thoughts, Good Words and Good Deeds more culturally rich with peaceful celebrations. More educated people are attracted to this category of religion.

**Category 2 Violent Religions Cannot Be Changed:** Violent Religions that are using every means for expanding by force, taxation of non-believer, using women as a slave or prize, Institutionalized Gender Inequality, Institutionalized violence against women, girls and children, Institutionalized violence and higher taxes for non-believer, girls education is low

priority, irrational with many conflicting thoughts attributes. Often in their celebrations kill Animals based on arguments that their God created Mother Earth and all animals for them ... and they are enforcing strict dress code for women ...

### **Destructive Subhuman Layer (0) Devolution?**

**Human Activities Deforestation, Environment Damage, Water. Air and Soil Pollution. Climate Change, Nuclear Waste, Herbicides and Pesticides with Irreversible damage attributes .. Greed, Stupidity and Evil Devolution**

### **Destructive Subhuman Layer (-1) Devolution?**

**Prolicide, Mass Killing of Species or Slaughter of Animals pushing them towards extinction ...Greed, Stupidity and Evil Devolution**

Example of Common Dominated Cruel Human Omnivore Culture patterns by great majority of Human population towards domestic and wild animals (over 90% ) in past 1000s years :

1. Matt Damon Narrates the Story of Dolphin Slaughter in Japan Video:  
<https://www.youtube.com/watch?v=uzuSULcggxQ>
2. Protesters film slaughter of hundreds of whales in the Faroe Islands (Denmark)

The screenshot shows the Wikipedia page for "Cruelty to animals". The page is partially obscured by a pink overlay. The visible content includes the "Definition and viewpoints" section, which discusses the historical view of animals as property and the philosophical arguments for their sentience. A world map titled "Worldwide laws regarding the formal recognition of nonhuman animal sentience and suffering" is also visible, with a legend indicating different levels of recognition (National, Partial, No recognition, Unknown) across various countries.

**Destructive Subhuman Layer (-4) Devolution?**

## Violent Backward Cultural and Religious Believe System Against Women and other Genders Evil Devolution?

Unfortunately, according to the United Nation's Population Fund, 1 in 3 women have experienced physical or sexualized violence in their lifetime. I was very surprised to find out that gender-based-violence is so high in USA Source <https://www.unfpa.org/gender-based-violence>

### Category 3 Violent Backward Cultural and Religious Believe System Against Women and other Genders:

Best Current Example **Female Genital Mutilation (FGM)** is a practice that involves altering or injuring the female genitalia for non-medical reasons, and it is internationally recognized as a human rights violation. Globally, it is estimated that some 200 million girls and women alive today have undergone some form of FGM please visit [UN site for details https://www.unfpa.org/female-genital-mutilation](https://www.unfpa.org/female-genital-mutilation)

**Female Genital Mutilation (FGM)**, also known as **Female Genital Cutting (FGC)**, is practiced in 30 countries in western, eastern, and north-eastern Africa,] in parts of the Middle East and Asia, and within some immigrant communities in Europe, North America and Australia. Visit Source:

[https://en.m.wikipedia.org/wiki/Prevalence\\_of\\_female\\_genital\\_mutilation](https://en.m.wikipedia.org/wiki/Prevalence_of_female_genital_mutilation)

**Female genital mutilation**, is "an abhorrent human rights violation" still affecting women and girls around the globe, UN Secretary-General Antonio Guterres stated in his message for the International Day of Zero Tolerance for FGM.

[What is FGM, where does it happen and why? BBC World Service](https://www.bbc.com/news/health-51884444)

The FGM Cruelty against children is where Freedom of Religion OR Culture OR Tradition arguments should be rejected. FGM is decried internationally for its cruelty. It is denounced by the World Health Organization (WHO), the United Nations Children’s Fund (UNICEF) and the United Nations Population Fund (UNFPA) as a violation of basic human rights and a form of child abuse. **At its most basic, this practice is rooted in the desire to control a woman’s sexuality.** Physicians worldwide agree that FGM is medically unnecessary, and the procedure poses physical, sexual, and psychological dangers for the young victims. **These girls, sometimes only a few days old, are subjected to an act that will have a profound negative effect on their lives.**

**Destructive Subhuman Layer (-5) Devolution Characteristics and Behaviors?**

Genocide Virus Layer (-3) Evil Devolution is From Era Before UN Universal Declaration of Human Rights (10 December 1948) World War I, World War II & Past 2500 Years

**Brilliant Mind John Hopkins trained physician Prof. Ari Babaknia M.D. Book "Humanity, NOT" [3] with decades of research Shine His Light for Destructive Subhuman Layer (-3) of 14 Layers Model**

**Please Watch Speech Overview About Holocaust by Dr. Ari Babaknia (15 Minutes) Youtube URL: <https://youtu.be/z5WVw8YR9OA>**

**Unfortunately, if today 7.8 Billion People of The World don't Learn Lessons from 75 Years ago Holocaust, then with very high probability and based on my 12 Layers AI Framework Model in Next 25 years instead of 6 Million Jews 6 billion people might be massacred.**

**The answer is in this challenging question:**

**What percentage of current 7.8 Billion People of The World are Human?**

**Reminding Historical Facts and Truth:**

In the spirit of the Nobel Laureates Immortal Elie Wiesel "Massager of Mankind " part of shameful history of Europe and in order not to repeat it again. Brilliant Mind John Hopkins trained physician Prof. Ari Babaknia M.D. From his Book "Humanity, NOT " [3], Page 250 stated "During the Holocaust mankind was divided into just and unjust with no neutrality because the neutral ones were guilty as accomplices, especially in the free countries like America, Switzerland or the Vatican. Surely they were guilty by not helping, by not taking sides or by waiting." We must remember that: "What you don't say carries weight"

Prof. Ari Babaknia M.D. From New Book "Humanity, NOT " [3], Page 248 "INACTION, IF NOT COMPLICITY The exploration of the analogies between the Armenian Genocide and the Holocaust establishes several themes that are central to the moral lessons of Holocaust. For example, Hitler used the excuse of the world's indifference to Armenian suffering to silence his Cabinet opposition and as a license to proceed at will with the destruction of Jews without the fear of permanent negative consequences." "The world that was silent yesterday, will remain silent tomorrow, unless we open our eyes to someone else's suffering." This is new test case for free world leaders and media ....

**Victims of Holocaust by Destructive Subhuman Layer (-3) Leadership**

**What is a virus and how does it work?**

Viruses need a host, another living organism that gives them everything they need to work. Viruses take any chance they can to find a host. They get inside the host's cells and take it over. Viruses use the host cells machinery to make lots of copies, so many that the cell bursts and infects other cells around it!

### **Destructive Subhuman Layer (-6) Devolution Characteristics and Behaviors?**

**Genocide Virus and Cancer Layer (-6) Evil Devolution by Terror /Torture Masters, Hostage Takers are from era After UN Universal Declaration of Human Rights (10 December 1948)**

**List of genocides by death toll Before and After UN Universal Declaration of Human Rights (10 December 1948)**

[https://en.wikipedia.org/wiki/List\\_of\\_genocides\\_by\\_death\\_toll](https://en.wikipedia.org/wiki/List_of_genocides_by_death_toll)

**The Universal Declaration of Human Rights, which was adopted by the UN General Assembly on 10 December 1948, was the result of the experience of the Second World War.**

**What is Genocide by Attorney Raphael Lemkin? Genocide is an internationally recognized crime where acts are committed with the intent to destroy, in whole or in part, a national, ethnic, racial, or religious group. These acts fall into five categories:**

- 1. Killing members of the group**
- 2. Causing serious bodily or mental harm to members of the group**
- 3. Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part**
- 4. Imposing measures intended to prevent births within the group**
- 5. Forcibly transferring children of the group to another group**

**There are a number of other serious, violent crimes that do not fall under the specific definition of genocide. They include crimes against humanity, war crimes, ethnic cleansing, and mass killing.**

**Genocide as an International Crime:**

**On December 9, 1948, the United Nations approved a written international agreement known as the Convention on the Prevention and Punishment of the Crime of Genocide. This convention established genocide as an international crime, which signatory nations “undertake to prevent and punish.” Preventing genocide, the other major obligation of the convention, remains a challenge that nations, institutions, and individuals continue to face.**

**Source: <https://www.ushmm.org/genocide-prevention/learn-about-genocide-and-other-mass-atrocities/what-is-genocide>**

**What is silent complicity?**

**Beneficial complicity — when Governments, Medias, Political Parties, or Companies benefits from human rights abuses even if it did not positively assist or cause them. Silent complicity — when the people in power is silent or inactive in the face of systematic or continuous human rights abuse.**

**Latest Example Khamenei Genocide in Iran, Assad in Syria. Free World Governments and Media are guilty of silence, inaction and complicity.**

**Latest Examples ISIS Genocide in Iraq & Syria and there were countries and groups provided financial support for them ...**

"Light will be the victor over darkness. It is not the light that the darkness conquers but the darkness that the light conquers."

Immortal Ameneh Shabaneh 17, 2019 35-year-old housewife Kerman Iran, on the evening of Sunday November 17, 2019 shot and killed, by Islamist regime. She was an Iranian civilian and mother of three young children. She was killed by a bullet as she was trying to help a woman across the street during a protest.

Prof. Fozu Zarn Taj (1922 - 1980) was an Iranian physician, educator and parliamentarian. She served as Minister of Education in Iran before the Islamic Revolution and was the first female cabinet minister of an Iranian government. Dr. Pajouh was a spoken supporter of women's rights in Iran. She was executed by firing squad on 6 May 1980.

Mehr Mahrouzchiad (Sept 10, 1965 - June 19, 1983) was an Iranian Bahá'í who, in 1983, together with nine other Bahá'í women, was sentenced to death and hanged in the city of Isfahán at age of 17. She was accused of being involved in the assassination of the Iranian president.

Amnesty International said more than 35 women had been "violently attacked and arrested" in the capital, Tehran, alone since December 2017 for taking part in "ongoing peaceful protests."

## **Lifestyle and Food Addiction:**

Renowned Prof. Bart Hoebel, a Princeton professor of psychology and the Princeton Neuroscience Institute who became internationally known for his research on food addiction and other addictions... Prof. Hoebel's interest in understanding how the brain rewards behavior encompassed a breadth of research and led to discoveries in the areas of eating disorders and obesity, addiction, alcohol consumption and depression. Prof. Bart Hoebel pioneered studies into the mental rewards of eating, and his research on sugar addiction in rats generated worldwide attention for its possible public health applications. Based on what I have learned from Immortal Prof. Bart Hoebel lifetime research and my own research regarding ShortSearch Constructive Change, I have come to conclusion that great Majority of Mankind become addicted to food, some kind of behavior or certain lifestyle or culture starting from childhood therefore ShortSearch Constructive or Destructive Change is not an easy task for great majority of people in the world less than 10% of people are open to Change.

Based on Physicist Stephen Hawking #StephenHawking “Pollution, Greed and Stupidity are the Greatest Threats to Earth.” “humans must colonize another planet in 100 years or face extinction” and 1000s of other scientists also predicted existential threats to Mother Earth. An event that could cause human extinction or permanently and drastically curtail humanity's potential is known as an existential risk. Human may not overcome existential threats unless great majority of Human decides to change lifestyle drastically and use all technological means and resources to clean up past 100 years Air, Water, and Soil pollution. As #StephenHawking

“Intelligence is the Ability to Adapt to Change” ShortSearch is recommending Constructive Lifestyle Change and planning to provide AI tool to help children and adults for this journey.

Based on ShortSearch Innovations Lab 14 Layers Ethical AI Framework Model working draft findings as it has been shown in the different diagrams and posters if today great majority of 7.8 Billion People of The World are indifferent and do not Learn Lessons from past 75 Years ago Holocaust, and other genocide in different part of world then with very high probability and based on current ShortSearch 14 Layers AI Framework Model in Next 25 years instead of 6 Million Jews in Europe 6 billion people might be killed as a results of many different future conflicts, unless different Non-profit foundations are allocating resources to develop Ethical AI for all ages education and coaching ...

Since ShortSearch Constructive Lifestyle Change is not an easy task for anyone therefore as a first step ShortSearch is proposing open discussion regarding Mother Earth Rights, ShortSearch AI Framework 7 Layers Human Evolution Model for Constructive Change at Strategic Inflection Point and beyond in the social media.

To navigate, monitor and help individual legacy to become proud citizen of Mother Earth based on **Universal Mother Earth Rights Code of Ethics**, ShortSearch is developing AI 7 Layers Tool to make extreme complex problem easier for children, teenagers and adults to follow Constructive Lifestyle Change journey to Layer 7 based on individual toleration level.

Humanity, NOT takes an in-depth look, in words and images at the captured emotions of the victims, perpetrators, bystanders, and survivors of the Holocaust told in their own words. Reading first-hand horrifying experiences of the victims as well as some thoughts from philosophers and scholars helps us understand that: "Reaction to the Holocaust has to be other than mere horror and revulsion. It has to be more than empathy with the victims, sharing their fear and some part of their actual suffering."

**List of genocides by death toll Before and After UN Universal Declaration of Human Rights (10 December 1948)**

[https://en.wikipedia.org/wiki/List\\_of\\_genocides\\_by\\_death\\_toll](https://en.wikipedia.org/wiki/List_of_genocides_by_death_toll)

**The Universal Declaration of Human Rights, which was adopted by the UN General Assembly on 10 December 1948, was the result of the experience of the Second World War.**

**What is Genocide by Attorney Raphael Lemkin? Genocide is an internationally recognized crime where acts are committed with the intent to destroy, in whole or in part, a national, ethnic, racial, or religious group. These acts fall into five categories:**

- 1. Killing members of the group**
- 2. Causing serious bodily or mental harm to members of the group**
- 3. Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part**
- 4. Imposing measures intended to prevent births within the group**
- 5. Forcibly transferring children of the group to another group**

**There are a number of other serious, violent crimes that do not fall under the specific definition of genocide. They include crimes against humanity, war crimes, ethnic cleansing, and mass killing.**

#### **Genocide as an International Crime:**

**On December 9, 1948, the United Nations approved a written international agreement known as the Convention on the Prevention and Punishment of the Crime of Genocide. This convention established genocide as an international crime, which signatory nations “undertake to prevent and punish.” Preventing genocide, the other major obligation of the convention, remains a challenge that nations, institutions, and individuals continue to face.**

**Source: <https://www.ushmm.org/genocide-prevention/learn-about-genocide-and-other-mass-atrocities/what-is-genocide>**

#### **What is silent complicity?**

**Beneficial complicity — when Governments, Medias, Political Parties, or Companies benefits from human rights abuses even if it did not positively assist or cause them. Silent complicity — when the people in power is silent or inactive in the face of systematic or continuous human rights abuse.**

**Latest Example Khamenei Genocide in Iran, Assad in Syria. Free World Governments and Media are guilty of silence, inaction and complicity.**

**Latest Examples ISIS Genocide in Iraq & Syria and there were countries and groups provided financial support for them ...**

سرست بچند کز کرم هوش  
بر می دم دست هوشی ز هوش  
گشودند آتش در دل بیخ  
گشاد کرم آفتاب است و باد و برف

And lately, by the Tavern Door agape,  
Came stealing through the dusk an Angel Shape  
Bearing a Vessel on his Shoulder; and  
He bid me taste of it, and twas-the Grapel  
Rizvani's English Version Of Khayyam Ders

زهی سبک کوزه در پیشه زان  
بمهی گشتند در شکست و تیران  
اگر بر آرد رشت انگیزان  
کای بیخیزان آرد آفتاب ز تیران

Alas for those who for To-day prepare,  
And those that after a To-morrow stare.  
A Muezzin from the Tower of Darkness cries  
"Fool! Your Reward is neither Here nor There!"  
Rizvani's English Version Of Khayyam Ders

## **Appendix K**

### **Are all of people humans?**

by Alexander Roumega 2011 2018

After completing this, while searching Google I have accidentally come across following article that divided people of world to the following 6 categories. Whether we agree with these categories defined by Alexander Roumega ( Source:

<https://alexander.roumega.name/en/prose/2feet.shtml> ) or what I have defined as part of ShortSearch AI Framework 7 Layers Human Evolution Model and 5 Subhuman Layers of Devolution Model for Constructive Change at Strategic Inflection Point and Beyond, the people of the world are facing huge challenges of Wars, Genocide, Climate Change, and existential threats that might destroy all species in Mother Earth within next 100 years unless major constructive change based on Code of Ethics at all levels of different countries will happen in parallel, economic growth without code of ethics growth might create disaster beyond what we have experienced in past 3000 years history of mankind.

Can ShortSearch AI Framework 14 Layers Model for Constructive Change at Strategic Inflection Point and Beyond right working draft innovative solution and proposal for next 100 years?

**Inhumans**

**Subhumans**

**Midhumans**

*This is the most common type.*

---

---

Generally, midhumans want to live as people and nothing else. They do not show such spite and cruelty as Inhumans show and rarer lie. But exploits, self-sacrifice and asceticism are not expected from them (at normal conditions)

### **Humans**

“Their percentage varies from 0.05 % to 3 – 5 % in the different places.”

### **Superhumans**

The percentage of superhumans is of the order 0.001 % – 0.3 %.

### **God-humans**

Not more than several thousands God-humans live now on whole Earth.

“Humans don’t constitute a majority of wide society or even significant social group. Their percentage varies from 0.05 % to 3 – 5 % in the different places. And just in intentional communities (ecovillages, ashrams, cloisters, skits, kibbutzim etc) human and superhuman percentage may be much higher. But this is not always and not in all of intentional communities.

Superhuman possess all merits and abilities of humans, and also they possess, in a varying degree, superabilities. As a rule, superhuman can recognize two-legged beings by a personality structure (at least, he can distinguish humans and midhumans from subhumans and inhumans).
